

Environmental Policy Statement

Strategy and Statements

Viz Reflectives is committed to minimising the impact of its activities on the environment.

The key points of our strategy to achieve this are:

1. Reduce waste by evaluating materials and operations; ensuring they are as effective / efficient as possible.
2. Minimise water and energy use so far as is reasonably practicable.
3. Reduce emissions through careful selection and use of materials and processes.
4. Actively promote recycling both internally and amongst our customers and suppliers.
5. Source and promote a product range that will minimise the environmental impact of production, distribution, use, and waste disposal
6. Utilise our employees to the best of their ability and strive for continuous improvement.
7. Meet or exceed all environmental legislation that relates to the Company.
